

## Registering your non-computer device to the Residential Network at SLU

### Step by Step

### Screens

1. **Plug** your device into the **Residential Network Jack (Ethernet/RJ45)**,
  - a. The Residential Network Jack is usually a colored port (blue, purple, green, etc) but it could also be beige. Note: some beige ports are old phone lines, and your Ethernet cable will not fit in them so do not use those.
2. **Find** and **write down** your **devices' Ethernet Physical or MAC Address**
  - a. This would be found under Settings -> Network
  - b. The MAC address is a string of six sets of two-digits or characters, separated by colons
  - c. Please make sure that it is not your wireless or bluetooth MAC
3. On your Computer, **open** a web browser
4. **Go to** [Resnetreg.slu.edu](http://Resnetreg.slu.edu)
5. **Check** the **SLU acceptable Use Policy box** and **Click Start**, F1
6. **Log-in** with **SLU Net ID** and **SLU Net Password**, **Click Continue**, F2
7. **Click** **Register A Different Device**, F3
8. **Type** the **Mac/Physical Address**
9. **Click** **Continue**
10. **After** getting the **Thank you for Registering Screen**, F4
11. **Wait 5 minutes** and **restart** your **device**. The device should connect to the Ethernet now.

**F1: SLU Acceptable Use Policy**  
.....

.....  
**F2: Login with your SLU Net ID  
and Password**  
.....

### Not getting networking?

Make sure to use the colored port on your jack. Look for the green, blue or purple port. The beige port is sometimes an old phone line and DOES NOT provide networking.

### Getting a time out error?

Restart your device.

### Having Problems registering?

Call the ITS Help Desk at 977-4000 or see the Student Service Desk located in the ATC/Pius Library.
